Spring Into Action: Together

A Research Study

Spring Into Action: Together is a caregiver implemented early education program for children 18 months to 3 years of age who are demonstrating social and/or communication delays.

Caregivers will learn strategies to support their child's learning and growth, while participating in fun and structured activities.

This program is being offered at no cost as part of the study. Researchers are studying outcomes of the intervention.

PROGRAM SCHEDULE

- Two times per week for four weeks
- Day and time subject to availability

PROGRAM INFORMATION

- You will be compensated for your time
- Participants are requested to join us for the entire four-week program
