

THE ELS FOR AUTISM FOUNDATION®

PROGRAMS & SERVICES

Speech-Language

THERAPY

Speech-Language Therapy provides individuals with access to speech, language, and a means to communicate their wants, needs, thoughts, and feelings.

The overall objective of speech-language therapy is to optimize an individual's ability to communicate, thereby improving quality of life.

Els for Autism offers comprehensive speech-language evaluations and therapy for individuals across ages.

Service Offerings

Available as a stand-alone or complementary service to other Els for Autism Foundation programs and services.

Registration Details

We now accept Aetna, United Healthcare, Cigna, and Tricare (certified out of network) for Speech-Language Therapy services.
