

Where Possibilities Are Endless

STOOPS FAMILY ADULT SERVICES BUILDING

The Stoops Family Adult Services Building at The Els Center of Excellence® is a place for individuals with autism spectrum disorder (ASD) to access the essential support and services needed during the transition to adulthood years and throughout life as an adult. Our adult programs and services aim to foster independence, confidence, and a sense of purpose in each individual's life by tailoring our programs to each person's strengths, needs, and interests.
